

Animated Clipart

1. Look through Microsoft's clip gallery for ideas or to find clipart to trace. (You may not copy and paste the clipart directly into Flash.) Look through Microsoft's motion clip's for ideas on how to animate. Remember—think young audience.
2. Trace or create the 1st keyframe.
3. Save as "your name animated clipart.FLA".
4. Use simple frame by frame editing and adjust the image in each frame. So insert a keyframe and make changes.
5. Continue this process. You must modify the image at least 3 times for a total of at least 4 keyframes.
6. Export movie as an animated GIF "your name animated clipart.GIF". This file will not play by double clicking on it, you must insert it into a PPT file. Insert into a PPT file and show instructor.

Scoring Guide:

Criteria	Poor	Average	Excellent
Drawing/Tracing (3)	0 No effort. Sloppy.	1-2 Could be better.	3 Good drawings.
Frame by Frame animation (2)	0	1 Maybe choppy or ineffective.	2 Smooth and effective.
Overall Impression/Creativity (3)	0 Choppy. Little effort.	1-2 May be distracting or lacks effort or creativity.	3 Original, creative, and attractive animation.
Output (2)	0	1	2 FLA saved. Animated Gif exported. Placed in PPT file for instructor to approve.
Total			10
